Descriptive Narrative:	<p>BellSouth Telecommunications, LLC d/b/a AT&T Alabama intends to retire copper facilities serving distribution area (DA) 4115 in the Cullman wire center (CLMNALMA) in Cullman, AL. No customers are currently served by these facilities, so this action will have no impact on customers.</p> <p>And in Adger, Alabama, the distribution areas (DAs) 1154 and 1203 in the Bessemer wire center (BSMRALMA) facilities are being replaced due to repeated theft of copper cable. On numerous occasions, thieves have stolen some copper cables serving these DAs, including their replacement cables.</p> <p>Rather than replace the copper facilities, AT&T Alabama plans to migrate customers currently served by copper facilities to existing Gigabit Passive Optical Network/Fiber-to-the-Premises (GPON/FTTP) facilities and then retire the copper facilities.</p>
