FLDOT requested AT&T Florida remove or relocate its facilities in the way of this road project before December 30, 2024.</p> <p>Description of Reasonably Foreseeable Impact of the Planned Changes: After implementation of this plan, copper facilities and, consequently, unbundled loops requiring copper facilities, e.g., digital subscriber line (DSL) or line-sharing circuits, will no longer be available in DAs 431304 and 432506.</p> <p>Currently, AT&T Florida records indicate (13) working circuits, and zero are competitive carrier circuits, impacted by this network change.
